

## QUALITY POLICY

- Quality is at the heart of everything that UNIFLOW CONTROLS PVT LTD does through product development, manufacture; supply and sale of control Valves, striving for total satisfaction of customers by continually improving the Quality Management System, products and services in terms of price, delivery and Quality.
- Quality Policy provides a framework for establishing and reviewing quality objectives, continuing its suitability.
- We are committed to fulfill needs and expectations of interested parties and review our internal and external issues identified in Quality Management System.
- We are committed to review this Quality policy & Objectives for its suitability and continual improvement.
- Quality Policy is communicated throughout the organization, our business associates, and external providers and understood by all.

*Issued on: 1st July 2020*

*Managing Director*

*This policy is communicated and explained internally through awareness training program and externally as suitable, and it is reviewed for continuing suitability in management review meetings.*
